

Alert List for Guidance Professionals – 2018

Course name change

Students applying to enter the Trinity Bachelor in Business Studies course (TR080) will in 2018 apply to 'Global Business'. This name change better reflects the substance of the course but does not signify a change in degree awarded or course content.

Courses such as B.E.S.S. (TR081), Business Studies and a Language (TR085, TR086, TR087, TR089, TR089), Computer Science and Business (TR082) or Business and Law (TR017) are not affected.

Applied A-level subjects now accepted for admission

The following 'applied' A-level subjects are now accepted for minimum entry requirements and scoring purposes:

- ▶ Moving Image Arts
- ▶ Digital Technology
- ▶ Environmental Technology
- ▶ Software Systems Development

These subjects will be scored in the same way as standard A-level subjects.

The standing of other Applied A-levels is unchanged.

New entry routes to Science Courses

Students seeking entry to Trinity's Science Courses in 2018, will now have four separate entry routes to choose from, signifying four integrated study paths: Biological & Biomedical Sciences (TR060); Chemical Sciences (TR061); Geography & Geosciences (TR062); Physical Sciences (TR063).

These streams now incorporate the 'Common Entry Science' Course (TR071), as well as a number of former direct entry courses.

For more information, including admissions requirements, see pages 152.

Change to Admission Requirements for entry in 2019

For students applying to enter the Pharmacy course (TR072) in Trinity College in 2019 the entry requirements will be as follows:

1. O4/H6 in mathematics (no change)
2. H4 in Chemistry OR Physics/Chemistry (previously H5 in Chemistry)
and H4 in one of physics, chemistry, biology, mathematics, geology, geography, applied mathematics, agricultural science. Physics/Chemistry may not be presented with physics or chemistry to satisfy requirements.
