

Discover a World of Aviation Careers

At Atlantic AirVenture TY students receive an exciting introduction to the spectrum of careers within the aviation industry. The aim of this programme is to give students an understanding of the career and study options available and to highlight the industry's demand for skilled professionals across the spectrum over the next 20 years.

For example, Ireland is not only the leader in global commercial aviation leasing and finance, it dominates it, Over half of the worlds leased aircraft are managed from Ireland. Over 26,000 people are directly employed by aviation company's in Ireland, contributing €4.1 billion to the economy. In the USA the Aviation industry supports 11 million workers and contributes \$1.5 trillion to the economy.

The 4 hr TY Aviation Field Trip is an excellent opportunity for students at a time when they are thinking about their future career's, Hearing first hand experiences of people working in the industry may help students to see where they can fit in to this exciting, diverse and challenging environment.

As part of the experience, everyone gets a chance to test their skill with a fun simulated flying lesson, and to round off the day students have an interactive guided tour of the Aviation Museum, to see a full scale Boeing 737 NG Flight Simulator, sit into Cessna aircraft, and get up close to the museums collection of Aircraft, Cockpits, Jet Engines and lots more. It's an educational and fun day out that is enjoyed by both the girls and boys and even the teachers!

**Get a 10% discount on your TY visit until
16th March 2016**
