

Undergraduate Career Information Evenings;

Thursday 21st Feb – LM116 BE Engineering (Common Entry)

Graduates from the [Bachelor of Engineering](#) programmes describe their careers to-date and the opportunities available to them since graduating including, [Biomedical Engineering](#), [Mechanical Engineering](#), [Civil Engineering](#), [Design and Manufacture Engineering](#)

– LM125 Physics (Common Entry)

Graduates from the [Bachelor of Physics](#) programmes describe their careers to-date and the opportunities available to them since graduating including, [Applied Physics](#) or [Mathematics & Physics](#)

Thursday 28th Feb – LM099 B Architecture

– LM076 BSc Product Design & Technology

Evenings run on Thursday evenings 7pm to 8pm on the UL Campus. Graduates from our programmes describe their careers to-date and the opportunities available to them since graduating. They also describe the type of work they engage in and how the skills and knowledge gained in their degree programme has benefited them in their careers. There is an opportunity to meet with the graduates and faculty over refreshments following the event.

Location: [Pavilion](#), University of Limerick, Ireland

The University of Limerick offers a suite of full time, part time, taught, research postgraduate programmes, and invites you to meet UL Faculty and current postgraduates to learn more about the opportunities that await you for 2019 and beyond.

Visit www.graduateschool.ul.ie for more information on courses

The New Glucksman Library

The University of Limerick has unveiled the dynamic and inspiring *New Glucksman Library*, designed to transform the Library and the University for scholarship in a digital age. The dynamic new library has been dramatically reimagined and extended with a sequence of interlinked, handsome, well-lit and beautifully proportioned spaces, each with a distinctive character, allowing for mood change and multiple uses, from the quiet traditional study space to much more vibrant and technology infused group spaces.

Repurposing the current library and adding an extra 7,500 sq. metres, the new Library has an additional 1,200 study places in a variety of learning styles that brings the total number of library study spaces to 2,200.

Newest features of the library:

- [ARC \(Automated Reserve Collection\)](#) - a 10 meter high book vault and robotic crane, with the capacity to store 500,000 volumes in a space 1/9th of conventional shelving, which will see UL's historic collections, currently housed off-site, returned to campus.
- Students can now borrow a laptop from the self-service kiosk in the Glucksman Library
- The Graduate Commons on floor 2 is designed specifically for postgraduate students, faculty and researchers with a mix of single and collaborative study spaces, computer workstations, and social/ interactive space
- The Medical and Health Sciences Library is designed for serious and intense study with an impressive double height reading room providing 75 study places and adjacent spaces for medical collections.
- Law Library and Silent Study is a light infused space on the third floor with skyline seating adjacent to a silent study area - 120 quiet and silent study spaces. An Appellate Court will allow students develop outstanding practitioner skills

Accommodation at UL

With 2,700 rooms across six residential villages at University of Limerick, there is something to suit everyone. Each village has a distinctive character with a wide range of facilities suitable for first year students. Our six villages vary in price too; this means that there is

accommodation on campus to suit all budgets. If you want to live as part of a vibrant student community, minutes' walk from lecture theatres, then campus accommodation at University of Limerick is a must for you. Incoming first years are accommodated in all of our student residences.

New incoming first years who are hoping to attend the University of Limerick in September 2019 will be able to apply for the accommodation lottery application system in mid-February. We will keep the lottery open for people to apply for approximately 3 weeks.

The lottery system will select successful applicants after the closing date. We will then communicate with all applicants on the status of their application.
