

”

*“I am so grateful to all who teach and support the Pre-Nursing course at Moate college. I would recommend anybody thinking of studying nursing to complete this PLC course, even if they achieve the required Nursing CAO points as it gives you an insight into the course before attending a 4-year degree.”*

**Emma – Nursing Studies**

”

*I studied on the Community Healthcare Services Course in Moate Business College. I absolutely loved the course, I learned lots of new skills and also made many friends. All the tutors in Moate Business College were very helpful. This course benefited me as I am now a qualified Health Care Assistant and work in a psychiatric hospital. I love my job caring for people and wouldn't change it for the world. Thanks to everyone in MBC for helping me on my journey.*

**Zoe – Community Health Services**

”

*I started in MBC as a mature student at the age of 29. The course gave me the confidence I needed as I had been out of education for a number of years. The support I received from all tutors was amazing, the belief they had in me encouraged me to apply through CAO to study Psychiatric Nursing. The course in MBC really prepared me for not only meeting deadlines,*

*writing assignments and academic writing in general but it was fantastic foundation and introduction into the healthcare sector. I am so grateful for my time in Moate Business College and for putting me on the right path for my future career.”*
