

”

The Business and Office Administration course at MBC was truly life-changing for me. The staff were incredibly helpful and provided unconditional support throughout my journey. Completing this course gave me a significant confidence boost, enhancing my knowledge and experience by equipping me with the skills and knowledge needed to excel in the business world. One of the highlights was the opportunity to take part in the Erasmus programme. I had the chance to travel to Italy for three weeks of work experience, which was an incredible experience. It broadened my horizons, allowed me to learn about different cultures, and enhanced my professional skills. The result of this course was not only gaining invaluable life experience but also securing full-time employment in the public service.

”

I chose to go to MBC after I dropped out from a degree that didn't interest me as much as I thought it would. I was nervous to start this course as I knew basically nothing about programming but the teachers at MBC were so helpful and supportive, they made my learning experience so much better. I learned about subjects such as web authoring, mobile technologies, and fundamentals of object orientated programming. In the end, this course turned out to be everything I was looking for as I was taught all I needed to know about software development at this level as well as learning about all the different college and career paths I could pursue after this course.

”

The standard of learning provided to students by MBC is second to none. I found the teaching staff to be extremely helpful in equipping me with all the skills necessary to fully engage and complete the course. I was also fortunate to be included in the Erasmus+ scheme to Italy, which was both enjoyable and beneficial to my course. Having acquired a Distinction in Level 6 Business with Tourism, this qualification has since resulted in my promotion within the

hotel I am employed with. I would recommend MBC to any student wishing to make that step back into education and commend the College for their professional and engaging teaching methods.
