

““ The positive and encouraging environment, friendly and down to earth tutors, and overall creative atmosphere are all reasons as to why I will look back at my years in MBC fondly.

Emma Art Level 6

““ Undertaking the Business and Office Administration course at MBC provided me with excellent knowledge and a broad range of skills for today's business environment. The tutors at MBC are approachable and generous with their time, ensuring the course was an interesting and enjoyable experience. I would definitely recommend Moate Business College to anyone looking to undertake a PLC.

Holly - Business & Office Administration

““ "Moate Business College gave me the confidence to follow my dreams and apply for a job working with people with disabilities. I am now permanently working with a disability service and enjoy every minute of it. I had been given the opportunity to experience most aspects of the service through completing work experience while studying in MBC.

Sharon - Community Health Services

““ "I am so grateful to all who teach and support the Pre-Nursing course at Moate Business College. I only hope that my lecturers in university are up to the same high standards that those in MBC have set. I would recommend anybody thinking of studying nursing to complete this PLC course, even if they achieve the required Nursing CAO points, as it gives you an insight into the course before attending a 4-year degree programme.

Rachel - Nursing Studies

““ I would highly recommend the Software Development Level 5 course to prospective students who may be interested in Software or Computers. My time in MBC was an overall brilliant experience and as a result I returned to do the Level 6 course in Advanced Software Development. On completion of my Level 5 course, I was offered an employment opportunity within the I.T. Sector as an I.T. Technician.

Darragh - Software Development

““ I started the Digital Marketing course in Moate Business College after deferred a place in NUIG. It's safe to say I made the right decision as I fell in love with the course and the modules associated with it. This course really has something for everyone, if you like business, you'll love the Business Administration and Bookkeeping modules, but if you feel you have a creative side, the Image Processing and Digital Marketing modules will also suit you.

Niamh - Digital Marketing
